Create a Certificate: Creates and stores a printable official certificate in PDF format and automatically transmits the data record to the Inspection Data Warehouse.

View a List of Certificates: Lists every certificate you create and allows you to view, supersede or correct the record.

View or Edit a Certificate Template: Allows you to create, view and edit templates to facilitate the issuance of certificates.

Import Records: Allows you to import shiplot records from the Cusum database, which can be used to generate certificates and detail records for IDW.

Import a Certificate from IDW: Allows you to import a record from IDW that was created by software other than CRT. Field office users **must** use this function to issue appeal certificates when the original or reinspection certificate was issued by a service provider that does not use CRT. When an imported record is superseded to create a review inspection certificate, many of the fields will be pre-populated. You can edit the information, as applicable for the review inspection.

Create or Edit Remarks: Allows the Application Administrator to add, delete or change statements that users select for the Remarks section.

Search Certificates: Lets you search records by the data fields listed on the search page.

Remark Template: The Remark Template feature lets you quickly insert a standard statement into the Remarks section of the certificate.

To insert a remark, scroll through the Remark Template selection box. Highlight the remark with the mouse and click Select. When you have finished adding remarks, click **Add Selected Remarks** to insert the Text in the Remark field.

Remark:

Remarks: Use this field to record any remarks or additional information, such as fumigation statements, contract numbers, seal numbers, etc.

Some remarks are automatically inserted when you populate certain fields. For example, entering a value in the field **Top Feet Sampled** automatically creates the statement “Top * feet sampled. Bottom not sampled.”

The image shows a web form interface. At the top, there are two dropdown menus. The first is labeled "Signature Original:" and the second is labeled "Signature Copies:". Both dropdown menus are open, showing three options: "No Print", "Print Only", and "Print and Signature". Below these dropdowns, there is a section labeled "Upload Signature:" which contains a text input field, a "Browse..." button, and an "Upload" button.

Signature Original and Signature Copies: Use the drop down list to select:

No print: When you select No Print, the inspector's name will not appear on the certificate.

Print only – When you select Print Only, the inspector's name will be printed on the certificate.

Print and Signature: When you select Print and Signature, both the printed name and a scanned image of the inspector's signature will appear on the certificate.

Upload Signature: Use the **Browse** button to locate the signature file on your computer. When the signature file is selected, click **Upload**. A confirmation window will appear. Once uploaded, the signature image will be added to the certificate when "Print and Signature" is selected for the Signature Original and/or Signature Copies fields.

This certificate is issued under the authority of the United States Grain Standards Act, as amended (7 U.S.C. 71 et seq.), and the regulations thereunder (7 CFR 800.0 et seq.). It is issued to show the kind, class, grade, quality, condition, or quantity of grain; or the condition of a carrier or container for the storage or transportation of grain; or other facts relating to grain as determined by official personnel. The statements on the certificate are considered true at the time and place the inspection or weighing service was performed. The certificate shall not be considered representative of the lot if the grain is transhipped or is otherwise transferred from the identified carrier or container or if grain or other material is added to or removed from the total lot. If this certificate is not canceled by a superseding certificate, it is receivable by all officers and all courts of the United States as prima facie evidence of the truth of the facts stated therein. This certificate does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or other Federal law.

EXAMPLE ONLY – NOT FOR OFFICIAL USE
WARNING: Any person who shall knowingly falsely make, issue, or alter this certificate, or permit any other person to do so, in violation of the U.S. Grain Standards Act, the U.S. Warehouse Act, or related Federal laws is subject to criminal, civil, and administrative penalties. Such services shall be accomplished without discrimination as to race, color, religion, sex, national origin, age, or handicap.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information is 0580-0013. The time required to disclose this recordkeeping requirement is to average 3.74 hours per recordkeeper annually, including the time to retain such records, and to notify, disclose, and report to third parties such recordkeeping requirements.

This certificate is issued under the authority of the United States Grain Standards Act, as amended (7 U.S.C. 71 et seq.) and the regulations thereunder (7 CFR 900.1 et seq.). It is issued to show the grade, class, grade, quality, condition, or quantity of grain, or the condition of a carload or consignment for the storage or transportation of grain, or other facts relating to grain as determined by official personnel. The statements on this certificate are considered true at the time and place the inspection or weighing service was performed. The certificate does not be considered representative of the lot if the grain is transported or is otherwise separated from the certified carrier or consignment or if grain or other material is added to or removed from the total lot. If this certificate is not carried by a transporting certificate, it is non-transferable to other lots of the United States or prima facie evidence of the truth of the facts stated herein. This certificate does not assume liability to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or other Federal law.

EXAMPLE ONLY - NOT FOR OFFICIAL USE

WARNING: Any person who shall knowingly make any false statement or representation on this certificate, or who shall knowingly cause any such statement or representation to be made, shall be liable to a fine of not more than \$10,000 or imprisonment for not more than 5 years, or both, under the U.S. Grain Standards Act, the U.S. Warehouse Act, or related Federal laws in addition to criminal, civil, and administrative penalties. Such services shall be accompanied without exception by a valid, proper, original, size, national origin, type, or commodity. According to the International Producer's Act of 1996, no persons are required to register in a collection of information unless it displays a valid (DMS) control number. The valid (DMS) control number for this information is 0750-0013. The time required to discuss the recordkeeping requirement is to average 10.00 hours per recordkeeper annually, including the time to collect, maintain, and to notify, disclose, and report to this office such recordkeeping requirements.

REMARKS:

Hold Nos. 1, 2, 3, 4 and 5 were observed being fumigated with 45 grams per 1000 cubic feet of hold space with Fumitoxin Pellets (55% aluminum phosphide) after the lot was loaded into the carrier, but the lot was not sampled and examined after fumigation. The chemical was contained in FUMISLEEVE DUST retainers.

It is the responsibility of International Fumigators, Inc. to insure that the above named vessel was fit to be fumigated, that the proper fumigant dosage was applied, that the fumigant is effective, and that all appropriate federal, state, and local laws and regulations are adhered to.
